#### Philippine peso to hit P54 to \$1 – BMI Research

The Philippine peso will still not get any love as it is expected to slide further to P54 to \$1 by year-end, according to Fitch Group's analytics arm BMI Research. "The Philippine peso continues to be the worst performing currency in the region, having weakened by more than 7% against the US dollar year-to-date," said BMI Research on Wednesday, June 27.
